

# PERSONAL ACCESS FLOOD DOORS

Flood protection for any standard, outward opening door.

[www.floodfree.com.au](http://www.floodfree.com.au)

The FloodFree Personal Access Flood Door (PAFD) is engineered to withstand the designated flood level. Once closed it provides a flood protected, lockable point of entry.

### FEATURES

- Feels, operates and looks like a regular door.
- Design complies with Australian Standard AS1428.1 (Design Access and Mobility Standards).
- Designed to fit standard door frame sizes.
- Hydrostatically charged door seals designed for optimum sealing performance.
- Multiple frame fixing points securely anchor door frame to wall.
- All fixings concealed.
- Suitable for most types of door hardware.
- Door and frame supplied in a range of colours.
- Door supplied pre-hung for easy installation.
- Designed for minimal maintenance.
- Permanent protection.
- Corrosion resistant.
- Robust construction.

### APPLICATIONS

- Shopping centres.
- Sporting complexes.
- Offices.
- Residential houses.
- Storage facilities.
- Industrial buildings.
- Utility rooms.
- Commercial.

### SIZES

- Suits standard door frame sizes.
- Customisable to suit.

### MATERIALS

- PAFDs are fabricated from marine grade aluminium, designed for strength, high corrosion resistance, long asset life and minimal maintenance.
- Doors will be supplied with Mortice Locks and Handles, unless otherwise specified.

### SEALING

- The FloodFree door design, frame and seals will provide water resistant sealing up to 900mm.

### MANUFACTURE

- All procedures are in accordance with AWMA's accredited ISO 9001 Quality Management System to ensure each barrier is manufactured to a high standard.

### INSTALLATION

- Installation procedure similar to standard door frames, no special skill set or training required.
- Doors supplied pre-hung, powder coated, or painted with hardware fitted.
- Installation instructions provided.

LOOKS, FEELS AND OPERATES LIKE A STANDARD DOOR.
